Homes fighting the financial crisis

Not all homes are dragging their owners into financial crisis. Some are throwing their owners a lifeline.

Cyber Publishing Ltd's hoveltohome.com interior design web site is leading the charge and arming home owners with the secrets to adding value, style or comfort to their home without spending a lot of money.

This free information web site explores tips on renovating to add maximum value, interior design basics, colour basics, wall, window and flooring treatments. It also has an interesting page on furniture arranging and history as well as information on the pros and cons of different fabrics to maximize the liveability of your private castle.

If you prefer you can also download this web site as a free interior design e book, which is a convenient touch.

Once you have learned the basics, hoveltohome.com provides you with access to an interior design forum where you can ask questions and get personalized advice from interior designers about your situation plus there are hundreds of free interior design, DIY and renovation videos you can watch to add depth to your knowledge.

Not surprisingly you will also find links to major interior design suppliers and services should you need them.

If inexpensively adding value to your home is your interest then Hovel to Home Interior Design would make a good place to start.
